

### Scoring for SSS Female

Factor scores are calculated by summing ratings on the items listed. Item 26 is reversed keyed. Factor 1 = 5, 11, 20, 35, 37, 39, 44, 45, 48, and 50; Factor 2 = 2, 6, 9, 13, 16, 18, 24, 25, and 32; Factor 3 = 3, 8, 22, 28, 31, 38, and 41. Sexual Self-Schema Score:

Total = Factor 1 + Factor 2 – Factor 3.

The remaining items (1, 4, 7, 10, 12, 14, 15, 17, 19, 21, 23, 26, 27, 29, 30, 33, 34, 36, 40, 42, 43, 46, 47, and 49) are fillers and are not scored.

### \*SPSS Syntax for Scoring the Sexual Self-Schema Scale (SSS) Female.

\*Reverse score the item 26.
